

107.1 Statement of policy.

The purpose and intent of this policy is to declare the standards of ethical conduct which the public expects and requires of its public officials and employees. Clear, effective communication of these standards is crucial to the success of achieving such standards. The District recognizes the right to protect the public trust against abuse. It is essential that the Board members (public officials) and its employees maintain the trust of the public. The District also recognizes the need for adherence to the Code of Ethics for Public Officers and Employees set forth in Part III, Chapter 112, F.S.<sup>1</sup> prohibiting conflict between public duty and private interests. The purpose of the Code is to ensure that public officials and employees conduct themselves independently and impartially, not using their offices or positions for unauthorized private (personal) gain.

It is not the intent of this policy to prevent any District public official or employee from accepting other employment or following any pursuit, provided provisions of this policy are satisfied.

It is the intent of this policy to prevent District public officials and employees or independent contractors from taking retaliatory action against any employee who reports violations of this policy on the part of the District, its public officials, its employees, or independent contractors that create a substantial and specific danger to the public's health, safety or welfare.
